The Consolidated Criteria

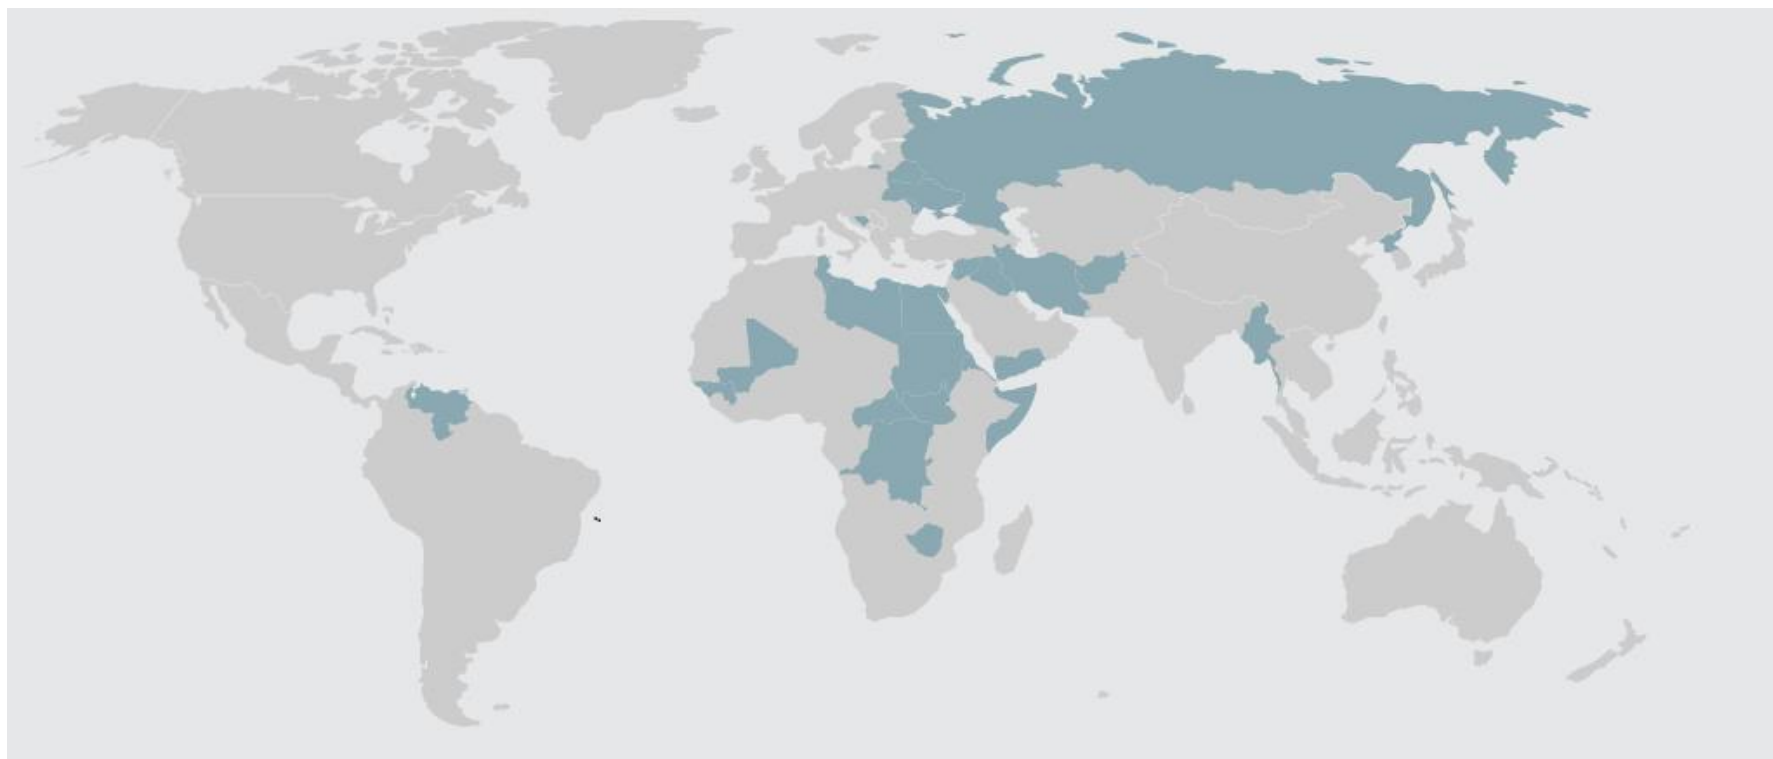

UNCLASSIFIED

Criterion 1

International Commitments

Will not issue an export licence if approval would be inconsistent with: UN, OSCE, EU and national arms embargoes and non-proliferation agreements.

EU and UN Sanctions Map, Feb 2018

Criterion 2

Internal Repression

A black and white photograph showing a line of riot police in a city street. The police are wearing helmets with visors and carrying shields. They are positioned in a line, facing towards the right side of the frame. The background shows trees and a building. The overall tone is serious and somber.

Will not issue an export licence if there is a *clear risk* that the export *might* be used for internal repression or in the commission of a serious violation of international humanitarian law

Criterion 3

Internal Conflict

A photograph of a young man in the foreground, wearing a camouflage shirt and a bandolier of bullets across his chest. He is holding a rifle. In the background, several other men, some in camouflage and some in civilian clothes, are visible, some holding weapons. The scene appears to be outdoors in a dry, dusty environment.

Will not issue licences for exports which would provoke or prolong armed conflicts or aggravate existing tensions or conflicts in the country of final destination.

Criterion 4

Regional Stability

A tank is shown in a desert environment, firing a missile. The missile is in the air, and there is a large plume of fire and smoke coming from the tank's turret. The tank is dark-colored and has the number '11' on its side. The background is a hazy, orange-tinted sky.

Will not issue an export licence if there is a clear risk that the recipient would use the proposed export aggressively against another country or to assert by force a territorial claim.

The background of the slide is a photograph of a large, intense fire or explosion. A massive, bright orange and yellow fireball is rising into the sky, with thick black smoke billowing from its base. In the foreground, there are dark, silhouetted trees and a road with a metal guardrail. The overall scene is dramatic and suggests a military or security-related context.

Criterion 5

Will take into account:

- (i) the risk of the goods concerned being used against UK forces or those of our allies**
- (ii) the need to protect UK military classified information and capabilities.**

Criterion 6

International Community

Criterion 7

Diversion

Will assess the existence of a risk that the equipment will be diverted within the buyer country, re-exported under undesirable conditions or reverse engineering

Criterion 8

Economic Sustainability

Will take into account whether the proposed export would seriously undermine the economy or seriously hamper the sustainable development of the recipient country.
