The Export Control Profession

- The only professional body in the UK specially for export control personnel
- Created and led by Export Control specialists
- Part of and supported by the Institute of Export and International Trade
- The UK regulator, the Export Control Joint Unit of the Department for International Trade, provides advice and support.

The Export Control Profession

- The **vision** of the Export Control Profession is to enable and promote excellence in compliance with export and import control and trade sanctions regulations.
- The **mission** of the ECP is to promote compliance of UK organisations with the relevant national and international regulations on export and import control and trade sanctions by representing the Export Control profession and providing Members with essential resources, professional points of contact and learning support.

Benefits of ECP membership

To **Members:**

- Obtain professional recognition
- Gain professional and career development
- Obtain authoritative expert advice and guidance from a network of export control professionals
- Keep up-to-date with latest developments in export controls and sanctions
- Connect with and share information with other export control professionals.

Benefits of ECP membership

To **Employers**:

In addition to your employees enjoying the benefits above, you will:

- Be assured of the qualifications and standards of skills of your staff
- Reduce the risks of non-compliance and the associated costs of fines and other sanctions
- Reduce the costs of compliance by adopting industry-standard processes
- Obtain authoritative expert advice and guidance from a network of export control professionals
- Have access to a pool of accredited export control specialists for employment.
